Camp Molly Lauman Letterboxes

| Name | Compass Required? | Description |
|-------------------------|---|---|
| Welcome to Camp! |  | Stand at the picnic table next to Century with your back to the camp office. Walk straight forward until you are standing in the middle of the parking lot (but still have Century directly behind you). Turn 90 degrees to your left. Walk straight to the end of the parking lot. You will see a small memorial sign. Look closely in the woods just behind the sign. Do you see anything else? |
| Left of Lightfoot Lodge |  | From the edge of the parking lot, furthest away from the camp office (where it meets the driveway), walk down the driveway towards the pool. Walk past the pool and archery range. When you reach the driveway to Lightfoot, stop and look to your left for two trees growing very close together (in the shape of a Y). Do you see anything near those trees? |
| Pioneer Trees |  | Start with the pool house to your back. Follow the trail from the pool house to the main trail that runs from Hodge Podge Lodge to Brechner. When you reach the main trail, turn right (towards Woodlands). Once you reach Woodlands, turn right and head up the gravel road towards Pioneer. Just before you reach Pioneer, you'll notice a small clearing on your right called The Grove. Look at the display board to the left of the sign. Can you find it? |
| Between Two Units |  | Continue into Pioneer. Walk through the unit with the Unit Kitchen at your back. When you reach the tents on the far side, look for a trail in the woods. Follow the trail down the hill (watch your step!) into Shawnee. When you see the yurts for Shawnee, turn left and walk into the unit (past the Latrines on your right). Follow the gravel driveway onto the main road of camp and stop (don't turn just yet, keep Shawnee at your back). Look directly across the road to the trees. There's a small trail there! Follow it about halfway and look on your right. Is there something there? |
| Have You Hit a Wall? |  | Head back the way you came onto the main camp road across from Shawnee. Turn right and follow the camp road to Ashgrove. With Ashgrove on your left, follow the camp road as it winds towards Wildwood. Go past the new Latrines on your left and look at the old Latrines on your right. A trail on your right leads back into the woods just before you reach Wildwood. Follow this trail until you come to a Challenge Course element that looks like a giant tower in the woods. On the back side of the tower is something you're looking for! |
| Can You Keep a Secret? |  | Exit the woods near the Challenge Course the way you came in and follow the camp road past the Latrines, Dogwood, and Shawnee. After you pass Shawnee, you'll see a gravel road on your left. Take this gravel road that will lead you to Lumberjack. Once you're standing next to Lumberjack Unit Kitchen (with it on your left), walk straight forward through the unit until you reach the Latrines (they're partially hidden in the woods). Follow the trail into the woods to the Latrines. With the Latrines on your right, walk straight into the woods. Take ten normal-sized walking steps and turn 90 degrees to your right. Walk straight forward. Keep walking in this general direction until you see the Secret Spot! Look under the front benches! |
